

# V Joy+ Series ISP Firmware Upgrade Instructions

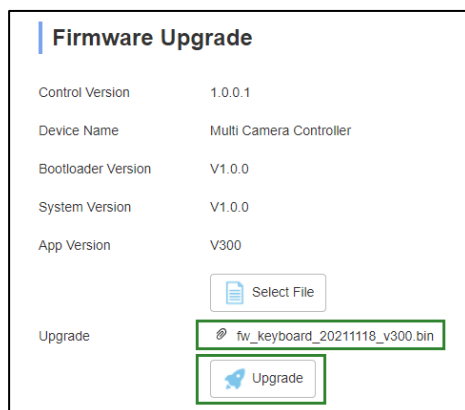

## Via WebUI

1, Connect and Access: Ensure both the keyboard and your computer are connected to the same LAN via network cables. Find the keyboard's local IP address from its menu, then enter this IP into your computer's web browser to access its Web Management Interface.

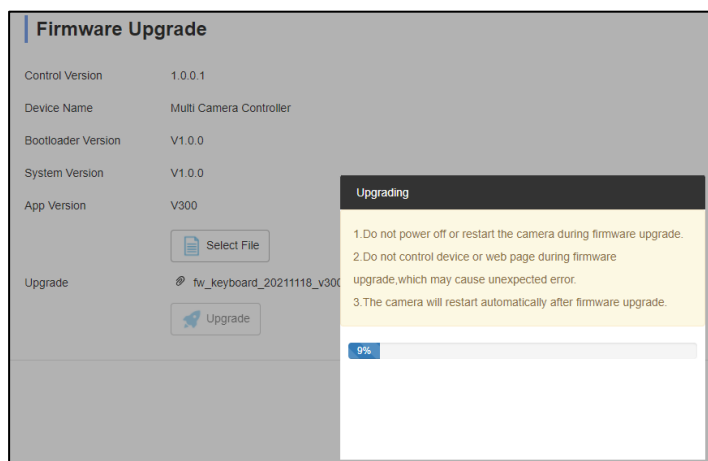

2, Locate Upgrade Option: Navigate to the "Setting" menu, then select "Firmware Upgrade".

3, Upload and Execute: Click "Select File", choose the correct firmware file (e.g., XXX.bin), and then click the "Upgrade" button to start the process.

4, Upgrade in Progress: The upgrade screen will be displayed.

5, Wait for Completion: The process will take approximately 2 to 3 minutes.

Please do not power off the device. Upon successful completion, the system will automatically restart and you will be returned to the web login screen.
